## **PROFESSIONAL SUMMARY**

Diagnostic medical sonography student with prior experience as a Pharmacy Technician and Medical Assistant in hospital, retail pharmacy, and specialty practice settings. Strong foundation in patient-centered care, clinical workflow, prescription management, and EMR documentation. Experienced supporting providers during medical and dermatologic procedures while maintaining efficiency and accuracy in high-volume healthcare environments. Expanding technical proficiency in general and vascular ultrasound, Doppler imaging, gastrointestinal, musculoskeletal, and introductory cardiac imaging. Seeking clinical placement and entry-level sonography opportunities where I can contribute strong patient care, attention to detail, and developing technical skills.

## **EDUCATION**

**Academy of Diagnostic and Osteopathic Medicine (ADOM)** – Danbury, CT

Diagnostic Medical Sonography and Vascular Technology with Diagnostology

2000 Hour Comprehensive Didactic and Clinical Program

Expected Graduation: October 9, 2025

**Gateway Community College** – New Haven, CT

Associate of Science (In Progress)

May 2022 – Present

**Housatonic Community College** – Bridgeport, CT

Undergraduate Coursework (Prerequisites)

**Central High School** – Bridgeport, CT

High School Diploma

August 2015 – August 2019

## **CLINICAL EXPERIENCE**

**Nussbaumer Health, LLC – Ultrasound Screening Program**

Danbury, CT | [Insert Rotation Dates]

Ultrasound Screening Scenario and Simulation (Preparatory to Clinical Placement)

- Completed intensive preparatory rotation with independent outpatient ultrasound screening exams designed to simulate real-world clinical workflow.
- Managed the full patient encounter: calling patients from the waiting room, verifying identity, obtaining basic history, positioning, and preparing the exam room.
- Performed supervised carotid, thyroid, abdominal, pelvic, prostate, vascular, and aortic screening exams with attention to image optimization and Doppler technique.
- Generated preliminary reports and presented findings for supervisory review and feedback.
- Followed infection control and safety protocols, including room turnover and equipment cleaning between patients.

**Additional Clinical Site**

Clinical Rotation – Pending

## **ULTRASOUND SKILLS**

### **General Sonography**

- Abdomen (complete and limited): liver, gallbladder, pancreas, spleen, kidneys
- Renal
- Thyroid
- Breast
- Transabdominal pelvic & prostate

### **Gastrointestinal (Introductory – Adult & Pediatric)**

- Stomach
- Pylorus (pyloric stenosis evaluation)
- Intussusception
- Appendix
- Introductory bowel evaluation

### **Vascular Technology**

- Carotid duplex
- Upper & lower extremity arterial duplex
- Upper & lower extremity venous duplex
- Abdominal aorta duplex
- Portal venous & hepatic Doppler
- Renal artery Doppler
- Color, power, and spectral Doppler
- Basic hemodynamic assessment

### **Musculoskeletal (Introductory – Adult & Pediatric)**

- Superficial soft tissue structures
- Tendon evaluation (introductory)
- Joint space assessment (introductory)
- Basic inflammatory vs. fluid differentiation

### **Basic Cardiac (Introductory)**

- PLAX, PSAX, apical views
- Chamber identification
- Introductory ventricular function assessment

## **ULTRASOUND EQUIPMENT**

- GE Logiq E
- GE Versana
- GE Vscan
- Mindray MX7
- Image archiving systems

## **CERTIFICATIONS & ELIGIBILITY**

- CPR / BLS Certified
- ARDMS SPI – Exam application planned
- CCI Registry Eligible. Upon CCI Registry, ARDMS eligible.

## **RELEVANT PROFESSIONAL EXPERIENCE**

### **Medical Assistant**

Dermatology Physicians of Connecticut – Hamden, CT | January 2025 – Present

- Assist providers during consultations and dermatologic procedures including biopsies, cryotherapy, minor surgeries, and cosmetic treatments.
- Document patient encounters in EMR and prepare biopsy and laboratory specimens for processing.
- Electronically transmit prescriptions and maintain clinical supply inventory.
- Support patient scheduling and respond to inquiries regarding services and treatment plans.
- Ensure exam room turnover, sterilization procedures, and compliance with infection control standards.

### **Pharmacy Technician**

Yale New Haven Health – Bridgeport, CT | May 2024 – April 2025

- Organized medications for pharmacist review by profiling prescriptions, preparing labels, and calculating quantities.
- Filled and delivered medication orders while adhering strictly to patient safety and hospital protocols.
- Collaborated with providers, insurance companies, and patients in high-volume environments.
- Managed medication inventory and maintained compliance within hospital units.

### **Pharmacy Technician**

CVS Health – West Haven, CT | September 2022 – May 2024

- Assisted an average of 50+ customers per day while maintaining confidentiality and service excellence.
- Filled and recorded prescriptions accurately and efficiently in fast-paced retail pharmacy setting.
- Coordinated with providers and insurance companies to resolve prescription and coverage issues.
- Supported inventory control, billing processes, and patient communication.
